

Practice Forum

Tuesday 21th August 2018

DOMESTIC
VIOLENCE
**ACTION
CENTRE**

The theme for the practice forum will be
"Regaining Financial Control"

This workshop will discuss the issue of financial abuse, how to identify it and discuss this form of violence with your clients.

The forum will also provide information on local financial literacy services and programs that may be useful for the clients you work with.

The purpose of the DVAC Practice Forums is to develop relationships between staff in organisations and departments working with families experiencing Domestic & Family Violence; to streamline and improve services across the group and provide excellent professional development opportunities for everyone involved. The training will draw not only on presenters but also on the very diverse skills and knowledge base of all attendees.
