BEFORE WE BEGIN

REFLECTION

Before we begin this module take a moment to think about how **knowledge** can help you STOP being part of the problem of financial abuse and START being part of the solution:

- Personal attributes and personal performance are linked to ullettechnical knowledge base
- Personal ethical conduct is linked to knowledge about matters that can give rise to ethical and standards issues
- Knowledge informs and improves professional conduct and lessens risks of disciplinary, civil and criminal liability
- Increased subject matter expertise leads to better igodotcritical thinking and reflective practice

Failing to gain knowledge can lead to a slippery slope for advisers.
